WATERWORKS

THE NEW ICONS

A Legacy of Innovation

An icon isn't born. It begins in the imagination, is perfected with experience and takes root because it endures.

These collections are inspired by elements from the past, crafted to span generations. Our designers and engineers found inspiration in the beauty of utility: materials, scale and unique details found in the early vintage and mechanical design aesthetic.

For four decades, Waterworks has redefined the bath and kitchen, combining timeless design with incomparable performance — ours is a life of invention.

Do not compromise on quality.
There is nothing more beautiful than a meticulously
crafted fitting. It's the first thing you touch in the
morning and the last at night.

Dash handles, halfway through the forging process

Our designers and engineers guide every Waterworks fixture, fitting and accessory through a multi-stage, often years-long process. It begins with the spark of an idea and a hand-drawn sketch. Through computer modeling to 3D prints, prototyping and tooling, we consider every curve and angle of a product,

and design a manufacturing process to create each element. Our focus on the touch of the hand — and time-honored craftsmanship — ensures that details stay clean and defined. It's just one example of how we strive for our own level of perfection: a way to make art functional and installation, straightforward.

Regulator

POWERFUL UTILITARIAN DETAILS

20TH CENTURY MECHANICAL PRINCIPLES

Regulator plays on the design of industrial boiler room controls from the early 20th century, when pride was lavished on hard-built parts. Translated into handcrafted forms, these fittings lend a sense of rugged beauty to the bath, expressing their sensibility through

powerful shapes, exposed parts and honest detailing. Regulator elements are rendered on a large scale that reflects their purposeful past and the mechanics involved in controlling the flow of water; adapted to the bath, they offer a sophistication all their own.

Faucet with Black Drop Lever
Handles in Shadow, Magma
3x6 Tile in Stargazer,
Andrian Soap Dish

— Regulator Thermostatic Control with Metal Wheel Handle and Two Way Thermostatic Diverter with Metal Lever Handle in Unlacquered Brass

— Opposite Page: Regulator Exposed Floor Mounted Tub Filler with Black Wheel Handles in Nickel, Voltaire Bathtub, Grove Brickworks 2x8 Tile in Upper Cove Gray

The essence of this collection is focused on the idea of reinvention. Each reference draws on pure mechanical elements from the past, edited into something more polished, more sophisticated.

Dash

UNEXPECTEDLY CLEAN, SPARE SILHOUETTES

1930'S VINTAGE QUALITIES

The perfect blend of art and function, Dash pays homage to design elements of the 1930s, with pared-down shapes, softened curves and minimal details. The resulting forms are beautiful and sophisticated, with a unique

simplicity that's anything but basic: Each element has the versatility to fit into any décor — from modern industrial to traditional — while still nodding to its vintage character and inspiration.

Henry

NUANCED MODERNIST SIMPLICITY

AUTHENTIC AMERICAN INGENUITY

Henry merges Bauhaus simplicity with straightforward American ingenuity, like pronounced hexagonal nuts and coin-edge rings. It is familiar yet entirely original.

The collection's authentic design and impeccable craftsmanship work hand in hand, easily transitioning between modern, traditional and utilitarian settings.

RUGGED PRECISION

EXCEPTIONAL INDUSTRIAL CRAFT

A groundbreaking, industrial-inspired collection that entices with powerful shapes, genuine materials and unique aesthetic details. The product of collaboration between Waterworks and Roman and Williams,

R.W. Atlas references a mix of precision-crafted goods from the past, from early microscopes to vintage cameras. Robust and profoundly hard working, this is an innovative and original design, evoking memory in a modern way.

Easton

CLASSIC PROPORTIONS

REINTERPRETED EDWARDIAN STYLE

Modeled after 100-year-old Edwardian styles that are still relevant today, Easton is one of the first products Waterworks made – and the spirit of these iconic collections. While the design's aesthetics reflect its deep historical origins, its classic proportions and scale have been carefully modified and refined. A single spout

and sleek gland covers give Easton Classic fittings a distinctly American sensibility, while Easton Vintage pays homage to an age of exposed construction. With a wide range of styles and custom handle materials, it's our way of showing that you can go backward but still look forward.

Penny Tile

TIME-HONORED PATTERN

GRAPHIC AND AGELESS

Extremely durable and versatile, our Penny Tile has a unique hydrophilic coating that makes it ideal for walls, floors and wet environments. Our curated selection offers the perfect mix of sizes and shades, from strong and soft color blends to classic white, black and sand.

Architectonics

HANDCRAFTED CERAMIC ARTISTRY

UNLIMITED POTENTIAL FOR COLOR AND SIZE

Built on a heritage of superior craftsmanship, our Architectonics collection offers a vast spectrum of handmade or precisely cut shapes, field sizes, textures, colors, moldings and trims. Each carefully selected hue complements the next, inviting unique tonal harmonies.

District Tile

RICH TRANSPARENT GLAZES
—
WORLDLY, HARMONIOUS HUES

Cast in deep, elemental colors, District Tiles feature transparent glazes that crackle and pool for tonal variations. Our hand glazed and dust-pressed field options come in a range of sizes, all complemented by architectural elements that give a space warmth and character.

Keelson

ENVIRONMENTALLY HARVESTED CUSTOM PLANKS
—
HAND SELECTED AND FINISHED

Cut into stunning wide planks, our hand-selected, hundred-year-old American oak and walnut timbers bring warmth and richness to floors. A special fuming process, usually reserved for fine furniture, enhances the natural colors and contrasts in the wood, creating an unusually beautiful, harmonious surface.

Keystone

EXQUISITE NATURAL STONE
—
EVOLVED TEXTURES & FINISHES

We meticulously hand-select our stones from the world's finest quarries, ensuring that they meet our quality standards for color, surface movement and strength. Curated by shade for easy selection, Keystone ranges from classic neutrals to exotic stones to distressed and textured options – each a unique and natural work of art.

Magma

HANDMADE FROM LAVA
—
UNIQUE CHEMISTRY & VARIATION

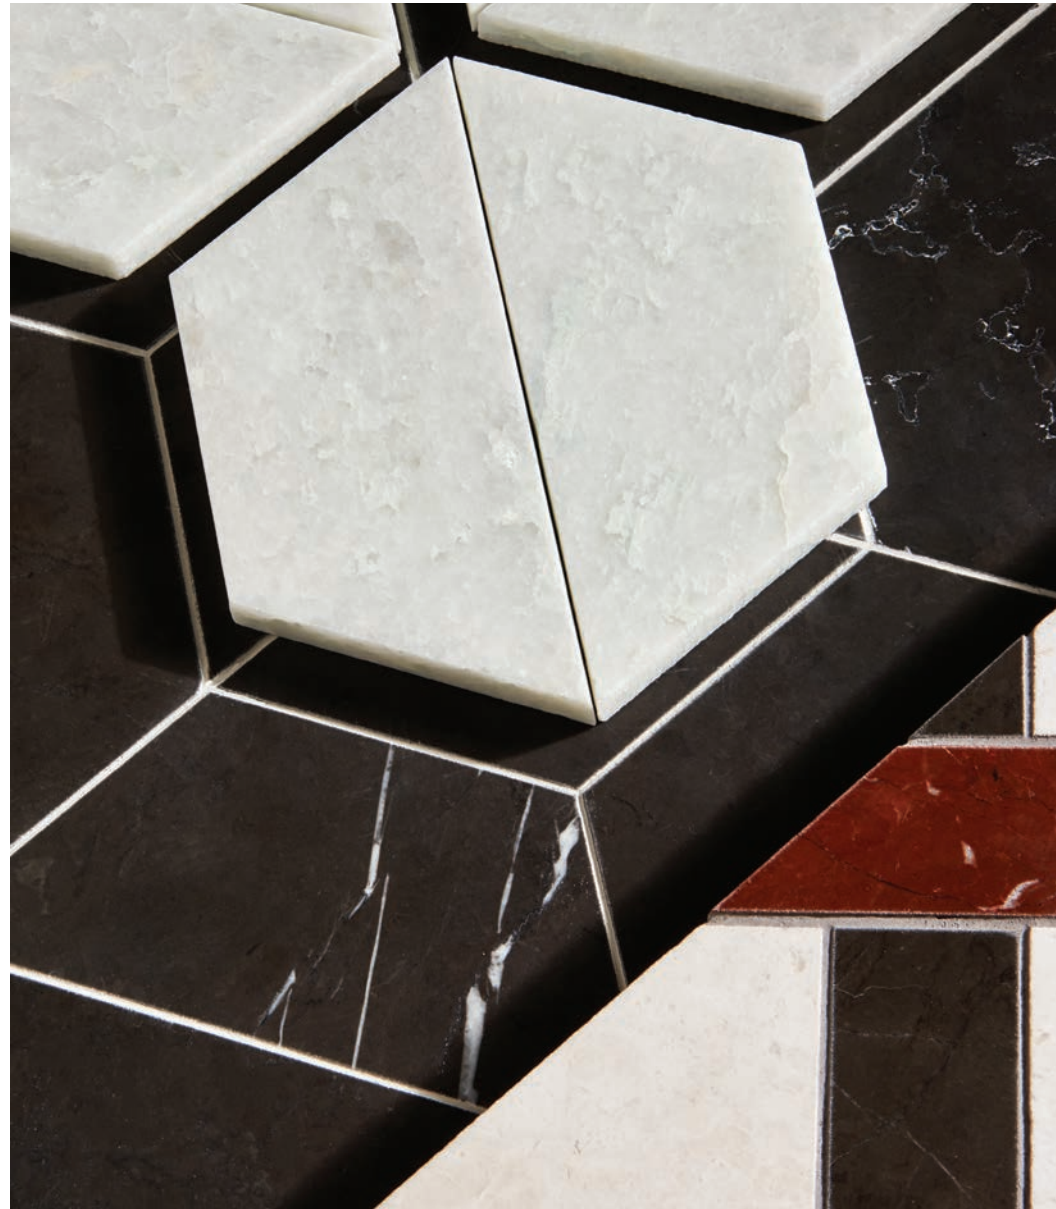

Created from the fine-grained lava of an erupting volcano, Magma tile projects a rich and decidedly modern feel. With its unique chemistry, enhanced texture and appealing variations in carefully curated color, it elegantly changes the mood of a bath or kitchen.

MasterPiece

STONE PARQUET-INSPIRED PATTERNS

—
INFINITELY CUSTOMIZABLE

Referencing classic wood designs, our MasterPiece styles are precisely engineered to capture the beauty of stone with an unexpected interplay of veining and shadings. Natural variations in the stone lend the patterns an artful quality on walls and floors.

Promenade

TIMELESS COLOR AND PATTERN

—
VERSATILE CEMENT TILES

Promenade celebrates the centuries-old tradition of making cement tiles, combining natural materials with artisanal craftsmanship. Eco-friendly and highly durable, the collection includes both modern and traditional patterns, each cast in a uniquely beautiful palette.

Repose

ELEGANT ARTISTIC GLASS

LUMINOUS TONAL VARIATIONS

Handmade for walls in an exquisite range of swirling shades and patterns, our glass mosaics combine deep tonal movement with a reflective quality that enlivens any room. Inspired by the early 20th century art movement, the collection includes classic options, like an antique mirrored finish, as well as bold contemporary ideas.

Grove Brickworks

REFINED ORGANIC CHARACTER

GLAZED BROWN BRICKS

To bring out the slightly rustic texture of these brown bricks, they're treated with one of the glossy glazes within our extensive color range. The process accentuates each tile's distinctive pinholes and movement, creating a rich, complex surface that gives character and strength to walls or floors.

Pierre | Grano | Gotham | Brixton

Henry Low Profile Faucet
with Coin Edge Cylinders
in Unlacquered Brass,
R.W. Atlas Washstand in
Unlacquered Brass, Brixton
Mirror, Luster Furnishings

Andrian

Sculpted from single blocks of marble, Andrian evokes the precise lines of mechanical gears and classic Greek columns.

Bowery

These cool graphite elements, crafted from a mix of resin and cement, are hand-sanded for an appealing industrial feel.

Luster

Handsome handcraftsmanship comes to full luster in these authentic brass and nickel accessories, some with knurl details.

Engine Turned Pewter

Inspired by antique lighters, the refined texture of these pewter designs complements formal, less feminine settings.

Pierre

Exquisite on any surface, these hand-cut crystal designs are made in an exclusive Waterworks-designed pattern.

Grano

Grano adds a touch of texture to any interior. Rugs are small-scale enough for a bathroom, but equally fitting in any room of the home.

Gotham

Smartly edged with cotton binding in the tradition of fine men's shirting, Gotham brings a clean, modern look to the bath.

Brixton

A fresh, modern blend of classic detailing and functional artistry, Brixton is sturdy yet elegant, balanced by soft, curved gestures.

Our solid brass fittings are plated with the highest quality metal and finished by hand.

LET US HELP

Everything we do at Waterworks is focused on creating an outstanding experience for our clients — from great designs to deep technical expertise.

Design Specialists

World-class service is important to us. Whatever you need, from inspiration to installation, our knowledgeable design consultants stay uniquely focused on your needs, giving you access to a rich heritage of expertise like no other.

Service Excellence

Shop our selection in-store, online or by phone. Our full-service experts will confirm your order within 24 hours, and review all the details to ensure that your project flows as smoothly as possible.

Technical Support

Our comprehensive support teams and materials offer professional designers and contractors the precise tools they need to specify, install and service our products.
