## THE COLLECTION: Voltaire

From its smooth, shaped rim to its riveted base, this industrial tub design incorporates historic detailing and modern comfort. The vintage tone is created through a burnished cast iron exterior that offers a rich patina and a wider, welcoming white enamel interior.

---

## FEATURES

- The riveted base detail of Voltaire lends itself to an early industrial influence.
- Double ended and wider for added comfort and easy installation.
- Available with optional slip resistant bottom, a built in safety feature.
- The exterior of primed bathtubs must be finished with a high quality paint before installation.
- Due to the manual finishing process, burnished bathtubs will show variation in the amount of exterior finish distress.
