ESTB. 1978

WATERWORKS

THE COLLECTION: Regulator

A play on industrial controls from the early 1900s, when pride was lavished on parts. Translated to handcrafted, fittings project rugged beauty through powerful, detailed shapes.

FEATURES

- Progressive Control. When the wheel handle is rotated the flow of cold water begins; continue rotating activates the mixing by adding hot water; at the end of the rotation, only hot water flows. Full rotation is a quarter turn
- 8" Gooseneck Swivel Spout
- Standard flow rate is 2.2gpm (8.3 L/min) and State of California requires a maximum of 1.8gpm(6.8 L/min). Also available in high efficiency flow options. Contact a sales associate for details.
